

Echoes of the Creator:

Healing the Earth by Restoring Our Spiritual Roots

October 20, 2026 @ 7:00-8:30 PM EDT (via Zoom)

Samantha Miller was the Indigenous Youth Delegate sent by The United Church of Canada to the 30th United Nations Climate Change Conference of the Parties (COP 30) in Brazil last November.

Journey with her through her experiences at COP 30.
as she shares deep wisdom about our relationship with creation.

Samantha Miller honours her roots of Six Nations by dedicating her life to the living earth. Moving with the fluid wisdom of the river, the strength of the trees, and the shifting rhythm of the seasons, she walks with a deep commitment to the Creator Jesus. She shares this truth by offering herself entirely to God's creation of the soil, the water, and the wind turning daily stewardship into a living prayer and reminding us all of our collective responsibility to the Creator of the land.
